This Prospectus sets forth basic information about the Fund that you should know before investing. It should be read and retained for future reference.

The date of this Prospectus is January 31, 2017.

SUMMARY SECTION

Investment Objective

The investment objective of the Zacks Dividend Fund (the “Fund”) is capital appreciation and dividend income.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees

(fees paid directly from your investment)

	Institutional Class
Maximum sales charge (load) imposed on purchases	None
Maximum deferred sales charge (load)	None
Redemption fee if redeemed within 30 days of purchase (as a percentage of amount redeemed)	2.00%
Wire fee	\$20
Overnight check delivery fee	\$25
Retirement account fees (annual maintenance fee)	\$15

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

Management fees	0.80%
Distribution and Service (12b-1) fees	None
Other expenses	1.73%
Total annual fund operating expenses	2.53%
Fees waived and/or expenses reimbursed ¹	(1.48)%
Total annual fund operating expenses after waiving fees and/or reimbursing expenses	1.05%

¹ The Fund’s advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.05% of the average daily net assets of the Fund. This agreement is in effect until March 31, 2019, and it may be terminated before that date only by the Trust’s Board of Trustees. The Fund’s advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years from the date of the waiver or payment.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	One Year	Three Years	Five Years	Ten Years
Institutional Class	\$107	\$334	\$917	\$2,503

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. For the fiscal year ended November 30, 2015, the Fund had a portfolio turnover rate of 29% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Fund will invest at least 80% of its net assets plus borrowings for investment purposes in equity securities of dividend paying companies organized or headquartered in the United States. The Fund’s equity investments include common stock, preferred stock, rights and warrants. Zacks Investment Management, Inc. (the “Advisor”) intends to invest the Fund’s assets in the equity securities of companies that the Advisor believes are undervalued based on their earnings, dividends, assets, or other financial measures. While the Fund may invest in companies of any market capitalization, it will generally focus on companies with large capitalizations (\$10 billion or higher at the time of purchase). The Fund may also invest in exchange-traded funds (“ETFs”), which are investment

companies that invest in portfolios of securities designed to track particular market segments or indices, the shares of which are bought and sold on securities exchanges. In addition, the Fund may also invest in American Depositary Receipts (“ADRs”), which are receipts that represent interests in foreign securities held on deposit by U.S. banks.

The Advisor employs a bottom-up investment approach to buying and selling investments for the Fund. The Advisor selects investments primarily based on quantitative analysis of an individual issuer and its potential for capital appreciation and dividend income. The Advisor uses a quantitative model that analyzes an issuer’s dividend yield, earnings, cash flows, competitive position, and management ability. The primary aim of this quantitative model is to systematically evaluate an issuer’s valuation, price and earnings momentum and earnings quality. In addition to considering a company’s financial condition the Advisor also considers other factors such as general market, economic, political, and regulatory conditions.

Principal Risks of Investing

Risk is inherent in all investing. A summary description of certain principal risks of investing in the Fund is set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry.

Equity Risk. The value of the equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests.

Management and Strategy Risk. The value of your investment is dependent upon the judgment of the Advisor about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Advisor in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

Small-Cap and Mid-Cap Company Risk. The securities of small-capitalization and mid-capitalization companies may be subject to more abrupt or erratic market movements and may have lower trading volumes or more erratic trading than securities of larger, more established companies or market averages in general. In addition, such companies typically are more likely to be adversely affected than large capitalization companies by changes in earning results, business prospects, investor expectations or poor economic or market conditions.

Large-Cap Company Risk. Larger, more established companies may be unable to attain the high growth rates of successful, smaller companies during periods of economic expansion.

Preferred Stock Risk. Preferred stock represents an equity interest in a company that generally entitles the holder to receive, in preference to the holders of other stocks such as common stock, dividends and a fixed share of the proceeds resulting from a liquidation of the company. The market value of preferred stock is subject to company-specific and market risks applicable generally to equity securities and is also sensitive to changes in the company’s creditworthiness, the ability of the company to make payments on the preferred stock, and changes in interest rates, typically declining in value if interest rates rise.

Value-Oriented Investment Strategies Risk. Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing is subject to the risk that the market will not recognize a security’s inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the markets. Therefore the Fund is most suitable for long-term investors who are willing to hold their shares for extended periods of time through market fluctuations and the accompanying changes in share prices.

Warrants and Rights Risk. Warrants and rights may lack a liquid secondary market for resale. The prices of warrants may fluctuate as a result of speculation or other factors. Warrants can provide a greater potential for profit or loss than

an equivalent investment in the underlying security. Prices of warrants do not necessarily move in tandem with the prices of their underlying securities and therefore, are highly volatile and speculative investments. If a warrant or right expires without being exercised, the Fund will lose any amount paid for the warrant or right. If the Fund owns common stock of a company, failing to exercise rights to purchase common stock would dilute the Fund's interest in the issuing company. The market for rights is not well developed, and the Fund may not always realize full value on the sale of rights.

Exchange Traded Funds ("ETF") Risk. Investing in an ETF will provide the Fund with exposure to the securities comprising the index on which the ETF is based and will expose the Fund to risks similar to those of investing directly in those securities. Shares of ETFs typically trade on securities exchanges and may at times trade at a premium or discount to their net asset values. In addition, an ETF may not replicate exactly the performance of the benchmark index it seeks to track for a number of reasons, including transaction costs incurred by the ETF, the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of securities held. Investing in ETFs, which are investment companies, involves duplication of advisory fees and certain other expenses. The Fund will pay brokerage commissions in connection with the purchase and sale of shares of ETFs.

Foreign Investment Risk. The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments, and changes in the regulatory environments of foreign countries. In addition, changes in exchange rates and interest rates may adversely affect the values of the Fund's foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less supervision and regulation than U.S. financial firms. Foreign securities include ADRs. Unsponsored ADRs involve additional risks because U.S. reporting requirements do not apply and the issuing bank will recover shareholder distribution costs from changes in share prices and payment of dividends.

Sector Focus Risk. The Fund may invest a larger portion of its assets in one or more sectors than many other mutual funds and thus will be more susceptible to negative events affecting those sectors. For example, as of November 30, 2016, a significant portion of the Fund's assets were invested in the Financial and Consumer sectors. Companies in the Financial sector may be adversely affected by many factors, including among others, fluctuations in interest rates, government regulation, economic conditions, credit rating downgrades, and decreased liquidity in the credit markets. The impact of more stringent capital requirements or future regulation on any individual financial company or on the sector as a whole cannot be predicted. Companies in the Consumer sector may be adversely affected by fluctuations in supply and demand, changes in the global economy, consumer spending, competition, demographics and consumer preferences, and production spending. Companies in the Consumer sector are also affected by changes in government regulation, global economic, environmental and political events, economic conditions and the depletion of resources.

Performance

The bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the average annual total returns of the Fund compare with the average annual total returns of a broad-based market index. The information shown in the bar chart and performance table are that of the Investor Class of the Fund because the Institutional Class is a new class that does not yet have its own performance information. Because shares of each Class are invested in the same portfolio securities, the performance of the Investor Class would have substantially similar annual returns of the Institutional Class. The annual return of the Investor Class and Institutional Class would differ only to the extent that the Classes do not have the same expenses. Updated performance information is available at the Fund's website, www.zacksfunds.com, or by calling the Fund at 888-453-4003. The Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future.

Calendar-Year Total Return (before taxes) for Investor Class

For each calendar year at NAV

The year-to-date return as of September 30, 2016, was 9.39%.

Highest Calendar Quarter Return at NAV (non-annualized):	7.37%	Quarter Ended 12/31/15
Lowest Calendar Quarter Return at NAV (non-annualized):	(7.01%)	Quarter Ended 9/30/15

Average Annual Total Returns for the Periods Ended December 31, 2015

	1 year	Since Inception (1/31/14)
Return Before Taxes		
Investor Class Shares	(2.11)%	6.42%
Return After Taxes on Distributions*		
Investor Class Shares	(2.77)%	5.90%
Return After Taxes on Distributions and Sale of Fund Shares*		
Investor Class Shares	(0.67)%	4.92%
Russell 1000 Index		
(Reflects no deductions for fees, expenses or taxes)	(3.83)%	6.65%

* After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

Investment Advisor

Zacks Investment Management, Inc.

Portfolio Managers

Benjamin L. Zacks, Senior Portfolio Manager, and Mitch E. Zacks, Portfolio Manager, have been jointly and primarily responsible for the day-to-day management of the Fund's portfolio since its inception in January 2014.

Purchase and Sale of Fund Shares

To purchase shares of the Fund, you must invest at least the minimum amount.

<u>Minimum Investments</u>	<u>To Open Your Account</u>	<u>To Add to Your Account</u>
Institutional Class		
Direct Regular Accounts	\$5,000	\$1,000
Direct Retirement Accounts	\$2,000	\$500
Automatic Investment Plan	\$5,000	\$500
Gift Account For Minors	\$2,000	\$500

Fund shares are redeemable on any business day the New York Stock Exchange (the “NYSE”) is open for business, by written request or by telephone.

Tax Information

The Fund’s distributions are generally taxable, and will ordinarily be taxed as ordinary income, qualified dividend income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account. Shareholders investing through such tax-advantaged arrangements may be taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

MORE ABOUT THE FUND'S INVESTMENT OBJECTIVE, PRINCIPAL INVESTMENT STRATEGIES AND RISKS

Investment Objective

The Fund's investment objective is capital appreciation and dividend income. There is no assurance that the Fund will achieve its investment objective.

The Fund's investment objective is not fundamental and may be changed by the Board of Trustees without shareholder approval, upon at least 60 days' prior written notice to shareholders. The Fund's investment strategies and policies may be changed from time to time without shareholder approval or prior written notice, unless specifically stated otherwise in this Prospectus or the Fund's Statement of Additional Information ("SAI").

Principal Investment Strategies

Under normal market conditions, the Fund will invest at least 80% of its net assets (plus borrowings for investment purposes) in equity securities of dividend paying companies organized or headquartered in the United States. The Fund's equity investments include common stock, preferred stock, rights and warrants. The Advisor intends to invest the Fund's assets in the stocks of companies that it believes are undervalued based on their earnings, dividends, assets, or other financial measures. While the Fund may invest its assets in companies of any size, the Advisor will generally focus on companies with large market capitalizations (\$10 billion or higher at the time of purchase). The Fund may also invest in ETFs and ADRs.

The Advisor employs a bottom-up investment approach to buying and selling investments for the Fund. The Advisor selects investments primarily based on quantitative analysis of an individual issuer and its potential for capital appreciation and dividend income. The Advisor uses a quantitative model that analyzes an issuer's dividend yield, earnings, cash flows, competitive position, and management ability. The primary aim of this quantitative model is to systematically evaluate an issuer's valuation, price and earnings momentum and earnings quality. In addition to considering a company's financial condition the Advisor also considers other factors such as general market, economic, political, and regulatory conditions.

The Fund will sell a security when one or more of the following occurs: 1) the security's dividend is reduced to what the Advisor believes is an unacceptable amount per share, 2) the security's yield falls below acceptable parameters, 3) there is a fundamental development that weakens the company's balance sheet, 4) a more attractive investment opportunity is identified for the Fund; or 5) the Fund needs cash to meet redemption requests.

When the Advisor believes that current market, economic, political or other conditions are unsuitable and would impair the pursuit of the Fund's investment objective, the Fund may invest up to 100% of its assets in cash or cash equivalents, including but not limited to, obligations of the U.S. Government, money market fund shares, commercial paper, certificates of deposit and/or bankers acceptances, as well as other interest bearing or discount obligations or debt instruments that carry an investment grade rating by a national rating agency. When the Fund takes a temporary defensive position, the Fund may not achieve its investment objective.

Principal Risks of Investing

The Fund's principal risks are set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors and special considerations associated with investing in the Fund, which may cause you to lose money.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. For example, the financial crisis that began in 2008 caused a significant decline in the value and liquidity of many securities; in particular, the values of some sovereign debt and of securities of issuers that invest in sovereign debt and related investments fell, credit became more scarce worldwide and there was significant uncertainty in the markets. Such environments could make identifying investment risks and opportunities especially difficult for the Advisor. In response to the crisis, the United States and other governments have taken steps to support financial markets. The withdrawal of this support or failure of efforts in response to the crisis could negatively affect financial markets generally as well as the value and liquidity of certain securities. In addition, policy and legislative changes in the United States and in other countries are changing many aspects of financial regulation. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time.

Equity Risk. The value of equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests. The price of common stock of an issuer in the Fund's portfolio may decline if the issuer fails to make anticipated dividend payments because, among other reasons, the financial condition of the issuer declines. Common stock is subordinated to preferred stocks, bonds and other debt instruments in a company's capital structure in terms of priority with respect to corporate income, and therefore will be subject to greater dividend risk than preferred stocks or debt instruments of such issuers. In addition, while broad market measures of common stocks have historically generated higher average returns than fixed income securities, common stocks have also experienced significantly more volatility in those returns.

Management and Strategy Risk. The value of your investment is dependent upon the judgment of the Advisor about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Advisor in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

Small-Cap and Mid-Cap Company Risk. Investing in small-capitalization and mid-capitalization companies generally involves greater risks than investing in large-capitalization companies. Small- or mid-cap companies may have limited product lines, markets or financial resources or may depend on the expertise of a few people and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or market averages in general. Many small capitalization companies may be in the early stages of development. Since equity securities of smaller companies may lack sufficient market liquidity and may not be regularly traded, it may be difficult or impossible to sell securities at an advantageous time or a desirable price.

Large-Cap Company Risk. Larger, more established companies may be unable to attain the high growth rates of successful, smaller companies during periods of economic expansion. In addition, large-capitalization companies may be unable to respond quickly to new competitive challenges, such as changes in technology and consumer tastes, and may be more prone to global economic risks.

Preferred Stock Risk. Preferred stock represents an equity interest in a company that generally entitles the holder to receive, in preference to the holders of other stocks such as common stocks, dividends and a fixed share of the proceeds resulting from a liquidation of the company. Preferred stocks may pay fixed or adjustable rates of return. The market value of preferred stock is subject to issuer-specific and market risks applicable generally to equity securities and is sensitive to changes in the issuer's creditworthiness, the ability of the issuer to make payments on the preferred stock and changes in interest rates, typically declining in value if interest rates rise. In addition, a company's preferred stock generally pays dividends only after the company makes required payments to holders of its bonds and other debt. Therefore the value of preferred stock will usually react more strongly than bonds and other debt to actual or perceived changes in the company's financial condition or prospects.

Value-Oriented Investment Strategies Risk. Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing is subject to the risk that the market will not recognize a security's inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the market. Therefore the Fund is most suitable for long-term investors who are willing to hold their shares for extended periods of time through market fluctuations and the accompanying changes in share prices.

Warrants and Rights Risk. A warrant gives the holder a right to purchase, at any time during a specified period, a predetermined number of shares of common stock at a fixed price. Rights are similar to warrants but typically have a shorter duration and are issued by a company to existing stockholders to provide those holders the right to purchase additional shares of stock at a later date. Unlike a convertible debt security or preferred stock, a warrant or right does not pay fixed dividends. A warrant or right may lack a liquid secondary market for resale. The price of a warrant or right may fluctuate as a result of speculation or other factors. In addition, the price of the underlying security may not reach, or have reasonable prospects of reaching, a level at which the warrant or right can be exercised prudently (in which case the warrant or right may expire without being exercised, resulting in a loss of the Fund's entire investment in the warrant or right). If the Fund owns common stock of a company, failing to exercise rights to purchase common stock would dilute the Fund's interest in the issuing company. The market for rights is not well developed, and the Fund may not always realize full value on the sale of rights.

ETF Risk. Investing in an ETF will provide the Fund with exposure to the securities comprising the index on which the ETF is based and will expose the Fund to risks similar to those of investing directly in those securities. Shares of

ETFs typically trade on securities exchanges and may at times trade at a premium or discount to their net asset values. In addition, an ETF may not replicate exactly the performance of the benchmark index it seeks to track for a number of reasons, including transaction costs incurred by the ETF, the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of securities held. Investing in ETFs, which are investment companies, involves duplication of advisory fees and certain other expenses. The Fund will pay brokerage commissions in connection with the purchase and sale of shares of ETFs.

Foreign Investment Risk. Investments in foreign securities are affected by risk factors generally not thought to be present in the United States. The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments, and changes in the regulatory environments of foreign countries. Special risks associated with investments in foreign markets include less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, less government supervision of exchanges, brokers and issuers, greater risks associated with counterparties and settlement, and difficulty in enforcing contractual obligations. In addition, changes in exchange rates and interest rates, and imposition of foreign taxes, may adversely affect the value of the Fund's foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less supervision and regulation than U.S. financial firms. The Fund's investments in depository receipts (including ADRs) are subject to these risks, even if denominated in U.S. Dollars, because changes in currency and exchange rates affect the values of the issuers of depository receipts. In addition, the underlying issuers of certain depository receipts, particularly un-sponsored or unregistered depository receipts, are under no obligation to distribute shareholder communications to the holders of such receipts, or to pass through to them any voting rights with respect to the deposited securities.

Sector Focus Risk. The Fund may invest a larger portion of its assets in one or more sectors than many other mutual funds and thus will be more susceptible to negative events affecting those sectors. At times the performance of the Fund's investments may lag the performance of other sectors or the broader market as a whole. Such underperformance may continue for extended periods of time. For example, as of November 30, 2016, a significant of the Fund's assets were invested in the Financial and Consumer sectors. Companies in the Financial sector may be adversely affected by many factors, including among others, fluctuations in interest rates, government regulation, economic conditions, credit rating downgrades, and decreased liquidity in the credit markets. The impact of more stringent capital requirements or future regulation on any individual financial company or on the sector as a whole cannot be predicted. Companies in the Consumer sector may be adversely affected by fluctuations in supply and demand, changes in the global economy, consumer spending, competition, demographics and consumer preferences, and production spending. Companies in the Consumer sector are also affected by changes in government regulation, global economic, environmental and political events, economic conditions and the depletion of resources.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the SAI. Currently, disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter, in the Fund's Annual Report and Semi-Annual Report to Fund shareholders, and in the quarterly holdings report on Form N-Q.

MANAGEMENT OF THE FUND

Investment Advisor

Zacks Investment Management, Inc. is an Illinois corporation formed in 1991 which maintains its principal offices at 227 W. Monroe, Suite 4350, Chicago, IL 60606 and acts as the investment advisor to the Fund pursuant to an investment advisory agreement (the "Advisory Agreement") with the Trust. The Advisor is a wholly-owned subsidiary of Zacks Investment Research, Inc., an entity controlled by Leonard H. Zacks and Benjamin L. Zacks. Leonard H. Zacks and Benjamin L. Zacks are the directors of the Advisor. The Advisor is an investment advisor registered with the SEC and serves as investment advisor or portfolio supervisor to investment portfolios with approximately \$3.5 billion in assets as of November 30, 2016.

Pursuant to the Advisory Agreement, the Fund pays the Advisor an annual advisory fee of 0.80% of the Fund's average daily net assets for the services and facilities it provides, payable on a monthly basis.

A discussion regarding the basis for the Board's approval of the Advisory Agreement with respect to the Fund is available in the Fund's Annual Report to shareholders for the period ending November 30, 2015.

Portfolio Managers

Benjamin L. Zacks, Senior Portfolio Manager at the Advisor, serves as portfolio co-manager of the Fund and provides a qualitative, fundamental overview of securities selected through the quantitative process. Mr. Zacks co-founded the Advisor in 1991 and has served in his current position since that time. Mr. Zacks co-founded Zacks Investment Research, Inc. in 1978 and served as Executive Vice President from 1978-1991. Mr. Zacks received a B.A. in Economics from Boston University.

Mitch E. Zacks, Portfolio Manager at the Advisor, serves as portfolio co-manager of the Fund and oversees the modeling and quantitative process. Mr. Zacks joined the Advisor in 1996 and has been a portfolio manager with the firm since 1999. Mr. Zacks received a B.A. in Economics from Yale University and an MBA in Analytic Finance from the University of Chicago.

The SAI provides additional information about the portfolio managers' method of compensation, other accounts managed by each portfolio manager and each portfolio manager's ownership of securities of the Fund.

Other Service Providers

IMST Distributors LLC (the "Distributor"), is the Trust's principal underwriter and acts as the Trust's distributor in connection with the offering of Fund shares. The Distributor may enter into agreements with banks, broker-dealers, or other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Trust, the Advisor or any other service provider for the Fund.

Fund Expenses

The Fund is responsible for its operating expenses (all of which will be borne directly or indirectly by the Fund's shareholders), including among others, legal fees and expenses of counsel to the Fund and the Fund's Independent Trustees; insurance (including Trustees' and officers' errors and omissions insurance); auditing and accounting expenses; taxes and governmental fees; listing fees; fees and expenses of the Fund's custodians, administrators, transfer agents, registrars and other service providers; expenses for portfolio pricing services by a pricing agent, if any; expenses in connection with the issuance and offering of shares; brokerage commissions and other costs of acquiring or disposing of any portfolio holding of the Fund and any litigation expenses.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.05% of the Fund's average daily net assets for Institutional Class Shares. This agreement is in effect until March 31, 2019, and may be terminated before that date only by the Trust's Board of Trustees.

Any reduction in advisory fees or payment of the Fund's expenses made by the Advisor in a fiscal year may be reimbursed by the Fund for a period ending three full fiscal years after the date of reduction or payment if the Advisor so requests. This reimbursement may be requested from the Fund if the aggregate amount of operating expenses for such fiscal year, as accrued each month, in addition to the reimbursement amount, does not exceed the lesser of (a) the limitation on Fund expenses in effect at the time of the relevant reduction in advisory fees or payment of the Fund's expenses, or (b) the limitation on Fund expenses at the time of the request. The reimbursement amount may not exceed the total amount of fees waived and/or Fund expenses paid by the Advisor and will not include any amounts previously reimbursed to the Advisor by the Fund. Any such reimbursement is contingent upon the Board's subsequent review of the reimbursed amounts and no reimbursement may cause the total operating expenses paid by the Fund in a fiscal year to exceed the applicable limitation on Fund expenses. The Fund must pay current ordinary operating expenses before the Advisor is entitled to any reimbursement of fees and/or Fund expenses.

PURCHASE OF SHARES

General

The Fund offers two classes of shares: Investor Class Shares and Institutional Class Shares. Investor Class Shares are offered in another prospectus.

Investor Class Shares generally incur annual distribution and shareholder service fees.

Institutional Class Shares do not incur distribution fees or shareholder service fees.

By offering multiple classes of shares, the Fund permits each investor to choose the class of shares that is most beneficial given the type of investor, the amount to be invested and the length of time the investor expects to hold the shares. As described more fully below, each class of shares offers a distinct structure of sales loads, distribution fees and service fees and other features that are designed to address the needs of a variety of investors.

Each class of shares generally has the same rights, except for the differing sales loads, distribution fees, service fees, any related expenses associated with each class of shares, and the exclusive voting rights by each class with respect to any distribution plan or service plan for such class of shares.

To purchase shares of the Fund, you must invest at least the minimum amount indicated in the following table.

<u>Minimum Investments</u>	<u>To Open Your Account</u>	<u>To Add to Your Account</u>
Institutional Class		
Direct Regular Accounts	\$5,000	\$1,000
Direct Retirement Accounts	\$2,000	\$500
Automatic Investment Plan	\$5,000	\$500
Gift Account For Minors	\$2,000	\$500

Shares of the Fund may be purchased by check, by wire transfer of funds via a bank or through an approved financial intermediary (*i.e.*, a supermarket, investment advisor, financial planner or consultant, broker, dealer or other investment professional and their agents) authorized by the Fund to receive purchase orders. A financial intermediary may charge additional fees and may require higher minimum investments or impose other limitations on buying and selling Fund shares. From time to time, a financial intermediary may modify or waive the initial and subsequent investment minimums. You may make an initial investment in an amount greater than the minimum amounts shown in the preceding table and the Fund may, from time to time, reduce or waive the minimum initial investment amounts. The minimum initial investment amount is automatically waived for Fund shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates.

To the extent allowed by applicable law, the Fund reserves the right to discontinue offering shares at any time or to cease operating entirely.

The offering price of each class of the Fund's shares is the net asset value per share ("NAV") of that class. The difference among the classes' NAVs reflects the daily expense accruals of the distribution fees applicable to Investor Class Shares and the differences in shareholder service fees. The Fund's NAVs are calculated as of 4:00 p.m. Eastern Time, the normal close of regular trading on the NYSE, on each day the NYSE is open for trading. If for example, the NYSE closes at 1:00 p.m. New York time, the Fund's NAVs would still be determined as of 4:00 p.m. New York time. In this example, portfolio securities traded on the NYSE would be valued at their closing prices unless the Trust's Valuation Committee determines that a "fair value" adjustment is appropriate due to subsequent events. The NAV for each class is determined by dividing the value of the Fund's portfolio securities, cash and other assets (including accrued interest) allocable to such class, less all liabilities (including accrued expenses) allocable to such class, by the total number of outstanding shares of such class. The Fund's NAVs may be calculated earlier if trading on the NYSE is restricted or if permitted by the SEC. The NYSE is closed on weekends and most U.S. national holidays. However, foreign securities listed primarily on non-U.S. markets may trade on weekends or other days on which the Fund does not value its shares, which may significantly affect the Fund's NAVs on days when you are not able to buy or sell Fund shares.

The Fund's securities generally are valued at market price. Securities are valued at fair value when market quotations are not readily available. The Board has adopted procedures to be followed when the Fund must utilize fair value pricing, including when reliable market quotations are not readily available, when the Fund's pricing service does not provide a valuation (or provides a valuation that, in the judgment of the Advisor, does not represent the security's fair value), or when, in the judgment of the Advisor, events have rendered the market value unreliable (see, for example, the discussion of fair value pricing of foreign securities in the paragraph below). Valuing securities at fair value involves reliance on the judgment of the Advisor and the Board (or a committee thereof), and may result in a different price being used in the calculation of the Fund's NAVs from quoted or published prices for the same securities. Fair value determinations are made in good faith in accordance with procedures adopted by the Board. There can be no assurance that the Fund will obtain the fair value assigned to a security if it sells the security.

In certain circumstances, the Fund employs fair value pricing to ensure greater accuracy in determining daily NAVs and to prevent dilution by frequent traders or market timers who seek to exploit temporary market anomalies. Fair value pricing may be applied to foreign securities held by the Fund upon the occurrence of an event after the close of trading on non-U.S. markets but before the close of trading on the NYSE when the Fund's NAVs are determined. If the event

may result in a material adjustment to the price of the Fund's foreign securities once non-U.S. markets open on the following business day (such as, for example, a significant surge or decline in the U.S. market), the Fund may value such foreign securities at fair value, taking into account the effect of such event, in order to calculate the Fund's NAVs.

Other types of portfolio securities that the Fund may fair value include, but are not limited to: (1) investments that are illiquid or traded infrequently, including "restricted" securities and private placements for which there is no public market; (2) investments for which, in the judgment of the Advisor, the market price is stale; (3) securities of an issuer that has entered into a restructuring; (4) securities for which trading has been halted or suspended; and (5) fixed income securities for which there is no current market value quotation.

Additional Payments to Broker-Dealers and Other Financial Intermediaries

The Advisor may pay service fees to intermediaries such as banks, broker-dealers, financial advisors or other financial institutions, some of which may be affiliates, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus accounts, other group accounts or accounts traded through registered securities clearing agents.

The Advisor, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to broker-dealers or intermediaries that sell shares of the Fund. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. The Advisor may pay cash compensation for inclusion of the Fund on a sales list, including a preferred or select sales list, or in other sales programs, or may pay an expense reimbursement in cases where the intermediary provides shareholder services to the Fund's shareholders. The Advisor may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold.

In-Kind Purchases and Redemptions

The Fund reserves the right to accept payment for shares in the form of securities that are permissible investments for the Fund. The Fund also reserves the right to pay redemptions by an "in-kind" distribution of portfolio securities (instead of cash) from the Fund. In-kind purchases and redemptions are taxable events and may result in the recognition of gain or loss for federal income tax purposes. See the SAI for further information about the terms of these purchases and redemptions.

Additional Investments. Additional subscriptions in the Fund generally may be made by investing at least the minimum amount shown in the table above. Exceptions may be made at the Fund's discretion. You may purchase additional shares of the Fund by sending a check together with the investment stub from your most recent account statement to the Fund at the applicable address listed in the table below. Please ensure that you include your account number on the check. If you do not have the investment stub from your account statement, list your name, address and account number on a separate sheet of paper and include it with your check. You may also make additional investments in the Fund by wire transfer of funds or through an approved financial intermediary. The minimum additional investment amount is automatically waived for shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates. Please follow the procedures described in this Prospectus.

Dividend Reinvestment. You may reinvest dividends and capital gains distributions in shares of the Fund. Such shares are acquired at NAV on the applicable payable date of the dividend or capital gain distribution. Unless you instruct otherwise, dividends and distributions on Fund shares are automatically reinvested in shares of the same class of the Fund paying the dividend or distribution. This instruction may be made by writing to the Fund's transfer agent (the "Transfer Agent") or by telephone by calling 1-888-453-4003. You may, on the account application form or prior to any declaration, instruct that dividends and/or capital gain distributions be paid in cash or be reinvested in the Fund at the next determined NAV. If you elect to receive dividends and/or capital gain distributions in cash and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months or more, the Fund reserves the right to reinvest the distribution check in your account at the Fund's current NAV and to reinvest all subsequent distributions.

Customer Identification Information

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you open an account, you will be asked for your name, date of birth (for a natural person), your residential address or principal place of business, and mailing address, if different, as well as your Social Security Number or Taxpayer Identification Number. Additional information is required for corporations, partnerships and other entities. Applications without such information will not be considered in good order. The Fund reserves the right to deny any application if the application is not in good order.

This Prospectus should not be considered a solicitation to purchase or as an offer to sell shares of the Fund in any jurisdiction where it would be unlawful to do so under the laws of that jurisdiction. Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Automatic Investment Plan

If you intend to use the Automatic Investment Plan (“AIP”), you may open your account with the initial minimum investment amount. Once an account has been opened, you may make additional investments in the Fund at regular intervals through the AIP. If elected on your account application, funds can be automatically transferred from your checking or savings account on the 5th, 10th, 15th, 20th or 25th of each month. In order to participate in the AIP, each additional subscription must be at least \$100, and your financial institution must be a member of the Automated Clearing House (“ACH”) network. The first AIP purchase will be made 15 days after the Transfer Agent receives your request in good order. The Transfer Agent will charge a \$25 fee for any ACH payment that is rejected by your bank. Your AIP will be terminated if two successive mailings we send to you are returned by the U.S. Postal Service as undeliverable. You may terminate your participation in the AIP at any time by notifying the Transfer Agent at 1-(888) 453-4003 at least five days prior to the date of the next AIP transfer. The Fund may modify or terminate the AIP at any time without notice.

Timing and Nature of Requests

The purchase price you will pay for the Fund’s shares will be the next NAV calculated after the Transfer Agent or your authorized financial intermediary receives your request in good order. “Good order” means that your purchase request includes: (1) the name of the Fund and share class to be purchased, (2) the dollar amount of shares to be purchased, (3) your purchase application or investment stub, and (4) a check payable to **Zacks Funds**. All requests to purchase Fund shares received in good order before 4:00 p.m. (Eastern Time) on any business day will be processed on that same day. Requests received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day’s NAV. All purchases must be made in U.S. Dollars and drawn on U.S. financial institutions.

Methods of Buying

Through a broker-dealer or other financial intermediary

The Fund is offered through certain approved financial intermediaries (and their agents). The Fund is also offered directly. A purchase order placed with a financial intermediary or its authorized agent is treated as if such order were placed directly with the Fund, and will be deemed to have been received by the Fund when the financial intermediary or its authorized agent receives the order and executed at the next NAV calculated by the Fund. Your financial intermediary will hold your shares in a pooled account in its (or its agent’s) name. The Fund may pay your financial intermediary (or its agent) to maintain your individual ownership information, maintain required records, and provide other shareholder services. The financial intermediary which offers shares may require payment of additional fees from its individual clients. If you invest through your financial intermediary, its policies and fees may be different than those described in this Prospectus. For example, the financial intermediary may charge transaction fees or set different minimum investments. Your financial intermediary is responsible for processing your order correctly and promptly, keeping you advised of the status of your account, confirming your transactions and ensuring that you receive copies of the Fund’s Prospectus. Please contact your financial intermediary to determine whether it is an approved financial intermediary of the Fund or for additional information.

By mail

The Fund will not accept payment in cash, including cashier’s checks. Also, to prevent check fraud, the Fund will not accept third-party checks, Treasury checks, credit card checks, traveler’s checks, money orders or starter checks for the purchase of shares. All checks must be made in U.S. Dollars and drawn on U.S. financial institutions.

To buy shares directly from the Fund by mail, complete an account application and send it together with your check for the amount you wish to invest to the Fund at the address indicated below. To make additional investments once you have opened your account, write your account number on the check and send it to the Fund together with the most recent confirmation statement received from the Transfer Agent. If your check is returned for insufficient funds, your purchase will be canceled and a \$25 fee will be assessed against your account by the Transfer Agent.

Regular Mail
Zacks Funds
P.O. Box 2175
Milwaukee, Wisconsin 53201

Overnight Delivery
Zacks Funds
235 West Galena Street
Milwaukee, Wisconsin 53212

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents.

By telephone

To make additional investments by telephone, you must authorize telephone purchases on your account application. If you have given authorization for telephone transactions, and your account has been open for at least 15 days, call the Transfer Agent toll-free at 1-888-453-4003 and you will be allowed to move money in amounts of at least \$100 from your bank account to the Fund account upon request. Only bank accounts held at U.S. institutions that are ACH members may be used for telephone transactions. If your order is placed before 4:00 p.m. (Eastern Time) on a business day shares will be purchased in your account at the NAV calculated on that day. Orders received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV. For security reasons, requests by telephone will be recorded.

By wire

To open an account by wire, a completed account application form must be received by the Fund before your wire can be accepted. You may mail or send by overnight delivery your account application form to the Transfer Agent. Upon receipt of your completed account application form, an account will be established for you. The account number assigned to you will be required as part of the wiring instruction that should be provided to your bank to send the wire. Your bank must include the name of the Fund, the account number, and your name so that monies can be correctly applied. Your bank should transmit monies by wire to:

UMB Bank, n.a.
ABA Number 101 000 695
For credit to Zacks Funds
A/C # 987 169 1543

For further credit to:
"Fund Name and Share Class"
Your account number
Name(s) of investor(s)
Social Security Number or Taxpayer Identification Number

Before sending your wire, please contact the Transfer Agent at 1-888-453-4003 to notify it of your intention to wire funds. This will ensure prompt and accurate credit upon receipt of your wire. Your bank may charge a fee for its wiring service.

Wired funds must be received prior to 4:00 p.m. (Eastern Time) on a business day to be eligible for same-day pricing. **The Fund and UMB Bank, n.a. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.**

Selling (Redeeming) Fund Shares

Through a broker-dealer or other financial intermediary

If you purchased your shares through an approved financial intermediary, your redemption order must be placed through the same financial intermediary. The Fund will be deemed to have received a redemption order when a financial intermediary (or its authorized agent) receives the order. The financial intermediary must receive your redemption order prior to 4:00 p.m. (Eastern Time) on a business day for the redemption to be processed at the current day's NAV. Orders received at or after 4:00 p.m. (Eastern Time) on a business day or on a day when the Fund does not value its shares will be transacted at the next business day's NAV. Please keep in mind that your financial intermediary may charge additional fees for its services. In the event your approved financial intermediary is no longer available or in operation, you may place your redemption order directly with the Fund as described below.

By mail

You may redeem shares purchased directly from the Fund by mail. Send your written redemption request to **Zacks Funds** at the address indicated below. Your request must be in good order and contain the Fund name and share class, the name(s) on the account, your account number and the dollar amount or the number of shares to be redeemed. The redemption request must be signed by all shareholders listed on the account. Additional documents are required for certain types of shareholders, such as corporations, partnerships, executors, trustees, administrators, or guardians (*i.e.*, corporate resolutions dated within 60 days, or trust documents indicating proper authorization).

Regular Mail
Zacks Funds
P.O. Box 2175

Overnight Delivery
Zacks Funds
235 West Galena Street
Milwaukee, Wisconsin 53212

A Medallion signature guarantee must be included if any of the following situations apply:

- You wish to redeem more than \$50,000 worth of shares;
- When redemption proceeds are sent to any person, address or bank account not on record;
- If a change of address was received by the Transfer Agent within the last 15 days;
- If ownership is changed on your account; or
- When establishing or modifying certain services on your account.

By telephone

To redeem shares by telephone, call the Fund at 1-888-453-4003 and specify the amount of money you wish to redeem. You may have a check sent to the address of record, or, if previously established on your account, you may have proceeds sent by wire or electronic funds transfer through the ACH network directly to your bank account. Wire transfers are subject to a \$20 fee paid by the shareholder and your bank may charge a fee to receive wired funds. Checks sent via overnight delivery are subject to a \$ 25 charge. You do not incur any charge when proceeds are sent via the ACH network; however, credit may not be available for two to three business days.

If you are authorized to perform telephone transactions (either through your account application form or by subsequent arrangement in writing with the Fund), you may redeem shares worth up to \$50,000 by instructing the Fund by phone at 1-888-453-4003. Unless noted on the initial account application, a Medallion signature guarantee is required of all shareholders in order to qualify for or to change telephone redemption privileges.

Note: The Fund and all of its service providers will not be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the caller must verify the following:

- The Fund account number;
- The name in which his or her account is registered;
- The Social Security Number or Taxpayer Identification Number under which the account is registered; and
- The address of the account holder, as stated in the account application form.

Medallion Signature Guarantee

In addition to the situations described above, the Fund reserves the right to require a Medallion signature guarantee in other instances based on the circumstances relative to the particular situation.

Shareholders redeeming more than \$50,000 worth of shares by mail should submit written instructions with a Medallion signature guarantee from an eligible institution acceptable to the Transfer Agent, such as a domestic bank or trust company, broker, dealer, clearing agency or savings association, or from any participant in a Medallion program recognized by the Securities Transfer Association. The three currently recognized Medallion programs are Securities Transfer Agents Medallion Program, Stock Exchanges Medallion Program and New York Stock Exchange, Inc.

Medallion Signature Program. Signature guarantees that are not part of these programs will not be accepted. Participants in Medallion programs are subject to dollar limitations which must be considered when requesting their guarantee. The Transfer Agent may reject any signature guarantee if it believes the transaction would otherwise be improper. A notary public cannot provide a signature guarantee.

Systematic Withdrawal Plan

You may request that a predetermined dollar amount be sent to you on a monthly or quarterly basis. Your account must maintain a value of at least \$10,000 for you to be eligible to participate in the Systematic Withdrawal Plan (“SWP”). The minimum withdrawal amount is \$100. If you elect to receive redemptions through the SWP, the Fund will send a check to your address of record, or will send the payment via electronic funds transfer through the ACH network, directly to your bank account on record. You may request an application for the SWP by calling the Transfer Agent toll-free at 1-888-453-4003. The Fund may modify or terminate the SWP at any time. You may terminate your participation in the SWP by calling the Transfer Agent at least five business days before the next withdrawal.

Payment of Redemption Proceeds

You may redeem shares of the Fund at a price equal to the NAV next determined after the Transfer Agent and/or authorized agent receives your redemption request in good order. Generally your redemption request cannot be processed on days the NYSE is closed. All requests received in good order by the Transfer Agent and/or authorized agent before the close of the regular trading session of the NYSE (generally, 4:00 p.m. Eastern Time) will usually be sent to the bank you indicate or wired on the following business day using the wire instructions on record. Except as specified below, the Fund will process your redemption request and send your proceeds within seven calendar days after the Fund receives your redemption request.

If you purchase shares using a check and request a redemption before the check has cleared, the Fund may postpone payment of your redemption proceeds up to 15 calendar days while the Fund waits for the check to clear. Furthermore, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists affecting the sale of the Fund’s securities or making such sale or the fair determination of the value of the Fund’s net assets not reasonably practicable; or (3) for such other periods as the SEC may permit for the protection of the Fund’s shareholders.

Other Redemption Information

Shareholders who hold shares of the Fund through an IRA or other retirement plan must indicate on their redemption request whether to withhold federal income tax. Redemption requests failing to indicate an election not to have taxes withheld will generally be subject to a 10% federal income tax withholding. In addition, if you are a resident of certain states, state income tax also applies to non-Roth IRA distributions when federal withholding applies. Please consult with your tax professional.

The Fund generally pays sale (redemption) proceeds in cash. However, under unusual conditions the Fund may pay all or part of a shareholder’s redemption proceeds in portfolio securities with a market value equal to the redemption price (redemption-in-kind) in lieu of cash in order to protect the interests of the Fund’s remaining shareholders. If the Fund redeems your shares in kind, you will bear any market risks associated with investment in these securities, and you will be responsible for the costs (including brokerage charges) of converting the securities to cash.

The Fund may redeem all of the shares held in your account if your balance falls below the Fund’s minimum initial investment amount due to your redemption activity. In these circumstances, the Fund will notify you in writing and request that you increase your balance above the minimum initial investment amount within 30 days of the date of the notice. If, within 30 days of the Fund’s written request, you have not increased your account balance, your shares will be automatically redeemed at the current NAV. The Fund will not require that your shares be redeemed if the value of your account drops below the investment minimum due to fluctuations of the Fund’s NAV.

Cost Basis Information

Federal law requires that regulated investment companies, such as the Fund, report their shareholders’ cost basis, gain/loss, and holding period to the IRS on the Fund’s shareholders’ Consolidated Form 1099s when “covered” shares of the regulated investment companies are sold. Covered shares are any shares acquired (including pursuant to a dividend reinvestment plan) on or after January 1, 2012.

The Fund has chosen “first-in, first-out” (“FIFO”) as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values and the entire position is not sold at one time. The Fund’s standing tax lot identification method is the method it will use to report the sale of covered

shares on your Consolidated Form 1099 if you do not select a specific tax lot identification method. Redemptions are taxable and you may realize a gain or a loss upon the sale of your shares. Certain shareholders may be subject to backup withholding.

Subject to certain limitations, you may choose a method other than the Fund's standing method at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Treasury regulations or consult your tax advisor with regard to your personal circumstances.

Tools to Combat Frequent Transactions

The Trust's Board of Trustees has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. The Trust discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm the Fund's performance. The Trust takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include monitoring trading activity and using fair value pricing. In addition, the Trust may take action, which may include using its best efforts to restrict a shareholder's trading privileges in the Fund, if that shareholder has engaged in four or more "round trips" in the Fund during a 12-month period. Although these efforts (which are described in more detail below) are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity may occur. Further, while the Trust makes efforts to identify and restrict frequent trading, the Trust receives purchase and sale orders through financial intermediaries and cannot always know or detect frequent trading that may be facilitated by the use of intermediaries or the use of group or omnibus accounts by those intermediaries. The Trust seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that the Trust believes is consistent with the interests of Fund shareholders.

Redemption Fee

You will be charged a redemption fee of 2.00% of the value of the Fund's shares being redeemed if you redeem your shares of the Fund within 30 days of purchase. The FIFO method is used to determine the holding period; this means that if you bought shares on different days, the shares purchased first will be redeemed first for the purpose of determining whether the redemption fee applies. The redemption fee is deducted from the sale proceeds and is retained by the Fund for the benefit of its remaining shareholders. The fee will not apply to redemptions (i) due to a shareholder's death or disability, (ii) from certain omnibus accounts with systematic or contractual limitations, (iii) of shares acquired through reinvestments of dividends or capital gains distributions, (iv) through certain employer-sponsored retirement plans or employee benefit plans or, with respect to any such plan, to comply with minimum distribution requirements, (v) effected pursuant to asset allocation programs, wrap fee programs, and other investment programs offered by financial institutions where investment decisions are made on a discretionary basis by investment professionals, (vi) effected pursuant to an automatic non-discretionary rebalancing program, (vii) effected pursuant to the SWP, or (viii) by the Fund with respect to accounts falling below the minimum initial investment amount. The Trust reserves the right to waive this fee in other circumstances if the Advisor determines that doing so is in the best interests of the Fund.

Monitoring Trading Practices

The Trust may monitor trades in Fund shares in an effort to detect short-term trading activities. If, as a result of this monitoring, the Trust believes that a shareholder has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Trust seeks to act in a manner that it believes is consistent with the best interest of Fund shareholders. Due to the complexity and subjectivity involved in identifying abusive trading activity, there can be no assurance that the Trust's efforts will identify all trades or trading practices that may be considered abusive.

General Transaction Policies

Some of the following policies are mentioned above. In general, the Fund reserves the right to:

- vary or waive any minimum investment requirement;
- refuse, change, discontinue, or temporarily suspend account services, including purchase or telephone redemption privileges (if redemption by telephone is not available, you may send your redemption order to the Fund via regular or overnight delivery), for any reason;

- reject any purchase request for any reason (generally, the Fund does this if the purchase is disruptive to the efficient management of the Fund due to the timing of the investment or an investor’s history of excessive trading);
- delay paying redemption proceeds for up to seven calendar days after receiving a request, if an earlier payment could adversely affect the Fund;
- reject any purchase or redemption request that does not contain all required documentation; and
- subject to applicable law and with prior notice, adopt other policies from time to time requiring mandatory redemption of shares in certain circumstances.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund and/or its service providers have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified.

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under “Methods of Buying.”

Your broker or other financial intermediary may establish policies that differ from those of the Fund. For example, the organization may charge transaction fees, set higher minimum investments, or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your broker or other financial intermediary for details.

Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Exchange Privilege. You may exchange shares of the Fund for shares of other funds managed by the Advisor which are offered in a separate prospectus (Please contact the Fund at 1-888-453-4003 to receive the prospectus for the other funds). The amount of the exchange must be equal to or greater than the required minimum initial investment (see “Minimum Investment” table). You may realize either a gain or loss on those shares and will be responsible for paying the appropriate taxes. If you exchange shares through a broker, the broker may charge you a transaction fee. You may exchange shares by sending a written request to the Fund or by telephone. Be sure that your written request includes the dollar amount or number of shares to be exchanged, the name(s) on the account and the account number(s), and is signed by all shareholders on the account. In order to limit expenses, the Fund reserves the right to limit the total number of exchanges you can make in any year.

Conversion of Shares

A share conversion is a transaction in which shares of one class of the Fund are exchanged for shares of another class of the Fund. Share conversions can occur between each share class of the Fund. Generally, share conversions occur when a shareholder becomes eligible for another share class of the Fund or no longer meets the eligibility criteria of the share class owned by the shareholder (and another class exists for which the shareholder would be eligible). Please note that a share conversion is generally a non-taxable event, but you should consult with your personal tax advisor on your particular circumstances. Please note, all share conversion requests must be approved by the Advisor.

A request for a share conversion will not be processed until it is received in “good order” (as defined above) by the Fund or your financial intermediary. To receive the NAV of the new class calculated that day, conversion requests must be received in good order by the Fund or your financial intermediary before 4:00 p.m., Eastern Time or the financial intermediary’s earlier applicable deadline. Please note that, because the NAV of each class of the Fund will generally vary from the NAV of the other class due to differences in expenses, you will receive a number of shares of the new class that is different from the number of shares that you held of the old class, but the total value of your holdings will remain the same.

The Fund’s frequent trading policies will not be applicable to share conversions. If you hold your shares through a financial intermediary, please contact the financial intermediary for more information on share conversions. Please note that certain financial intermediaries may not permit all types of share conversions. The Fund reserves the right to terminate, suspend or modify the share conversion privilege for any shareholder or group of shareholders.

The Fund reserves the right to automatically convert shareholders from one class to another if they either no longer qualify as eligible for their existing class or if they become eligible for another class. Such mandatory conversions may be as a result of a change in value of an account due to market movements, exchanges or redemptions. The Fund will notify affected shareholders in writing prior to any mandatory conversion.

Availability of Information

In order to reduce the amount of mail you receive and to help reduce expenses, we generally send a single copy of any shareholder report and Prospectus to each household. If you do not want the mailing of these documents to be combined with those of other members of your household, please contact your authorized dealer or the Transfer Agent. The Fund's Prospectus and SAI are also available on the website at www.zacksfunds.com.

Additional Information

The Fund enters into contractual arrangements with various parties, including among others the Advisor, who provide services to the Fund. Shareholders are not parties to, or intended (or "third-party") beneficiaries of, those contractual arrangements.

The Prospectus and the SAI provide information concerning the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this prospectus nor the SAI is intended to give rise to any contract rights or other rights in any shareholder, other than any rights conferred by federal or state securities laws that may not be waived.

DIVIDENDS AND DISTRIBUTIONS

The Fund will make distributions of net investment income quarterly and net capital gains, if any, at least annually, typically in December. The Fund may make additional payments of dividends or distributions if it deems it desirable at any other time during the year.

All dividends and distributions will be reinvested in Fund shares unless you choose one of the following options: (1) to receive net investment income dividends in cash, while reinvesting capital gain distributions in additional Fund shares; or (2) to receive all dividends and distributions in cash. If you wish to change your distribution option, please write to the Transfer Agent before the payment date of the distribution.

If you elect to receive distributions in cash and the U.S. Postal Service cannot deliver your check, or if your distribution check has not been cashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current NAV and to reinvest all subsequent distributions.

FEDERAL INCOME TAX CONSEQUENCES

The following discussion is very general and does not address investors subject to special rules, such as investors who hold Fund shares through an IRA, 401(k) plan or other tax-advantaged account. The SAI contains further information about taxes. Because each shareholder's circumstances are different and special tax rules may apply, you should consult your tax advisor about your investment in the Fund.

You will generally have to pay federal income taxes, as well as any state or local taxes, on distributions received from the Fund, whether paid in cash or reinvested in additional shares. If you sell Fund shares, it is generally considered a taxable event. If you exchange shares of the Fund for shares of another fund, the exchange will be treated as a sale of the Fund's shares and any gain on the transaction may be subject to federal income tax.

Distributions of net investment income, other than "qualified dividend income," and distributions of net short-term capital gains, are taxable for federal income tax purposes at ordinary income tax rates. Distributions from the Fund's net capital gain (i.e., the excess of its net long-term capital gain over its net short-term capital loss) are taxable for federal income tax purposes as long-term capital gain, regardless of how long the shareholder has held Fund shares.

Dividends paid by the Fund (but none of the Fund's capital gain distributions) may qualify in part for the dividends-received deduction available to corporate shareholders, provided certain holding period and other requirements are satisfied. Distributions of investment income that the Fund reports as "qualified dividend income" may be eligible to be taxed to non-corporate shareholders at the reduced rates applicable to long-term capital gain if derived from the Fund's qualified dividend income and if certain other requirements are satisfied. "Qualified dividend income" generally is income derived from dividends paid by U.S. corporations or certain foreign corporations that are either incorporated in a U.S. possession or eligible for tax benefits under certain U.S. income tax treaties. In addition, dividends that the Fund

receives in respect of stock of certain foreign corporations may be qualified dividend income if that stock is readily tradable on an established U.S. securities market.

You may want to avoid buying shares of the Fund just before it declares a distribution (on or before the record date), because such a distribution will be taxable to you even though it may effectively be a return of a portion of your investment.

Although distributions are generally taxable when received, dividends declared in October, November or December to shareholders of record as of a date in such month and paid during the following January are treated as if received on December 31 of the calendar year when the dividends were declared. Information on the federal income tax status of dividends and distributions is provided annually.

Dividends and distributions from the Fund and net gain from redemptions of Fund shares will generally be taken into account in determining a shareholder's "net investment income" for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, dividends and other distributions. The backup withholding rate is currently 28%.

Dividends and certain other payments made by the Fund to a non-U.S. shareholder are subject to such withholding of federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty). Dividends that are reported by the Fund as "interest-related dividends" or "short-term capital gain dividends" are generally exempt from such withholding for taxable years of the Fund beginning before January 1, 2015. In general, the Fund may report interest-related dividends to the extent of its net income derived from U.S.-source interest and the Fund may report short-term capital gain dividends to the extent its net short-term capital gain for the taxable year exceeds its net long-term capital loss. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax described in this paragraph.

Unless certain non-U.S. entities that hold shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to distributions payable to such entities after June 30, 2014 (or, in certain cases, after later dates), and redemption proceeds and certain capital gain dividends payable to such entities after December 31, 2016. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the United States and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

Some of the Fund's investment income may be subject to foreign income taxes that are withheld at the country of origin. Tax treaties between certain countries and the United States may reduce or eliminate such taxes, but there can be no assurance that the Fund will qualify for treaty benefits.

FINANCIAL HIGHLIGHTS

The following table is intended to help you understand the Fund's financial performance for the period from its commencement of operations through May 31, 2016. Certain information reflects financial results for a single Fund share. The total return figures represent the percentage that an investor in the Fund would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The financial highlights for all periods prior to December 1, 2015, have been audited by Tait, Weller & Baker LLP, an independent registered public accounting firm. The financial highlights for the six months ended May 31, 2016, are unaudited but reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the period presented. Tait, Weller & Baker LLP's report and the Fund's financial statements for all periods prior to December 1, 2015, are included in the Fund's Annual Report which is available upon request. The Fund's financial statements for the six months ended May 31, 2016, are included in the Fund's Semi-Annual Report which is also available upon request.

Zacks Dividend Fund Investor Class

Per share operating performance.

For a capital share outstanding throughout each period.

	For the Six Months Ended May 31, 2016 (Unaudited)	For the Year Ended November 30, 2015	For the Period January 31, 2014* Through November 30, 2014
Net asset value, beginning of period	\$ 16.69	\$ 17.17	\$ 15.00
Income from Investment Operations:			
Net investment income ¹	0.17	0.30	0.21
Net realized and unrealized gain (loss) on investments	0.47	(0.47)	2.05
